## Comments

Each line corresponds to a student's answer		
Strengths	Aspects to be improved	Comments, clarifications, suggestions
-having 2 teachers who provide 2 different thinkings - interventions of guests - presentation and discussion on many topics		
I really enjoyed this online course with you as a teacher :)	Please invest in a proper Headset for further online courses, sometimes I had problem understanding you arcustically. Also watching you with a virtual background is distracting. It is more comfortable if you would be in an area where you could not have a virtual background, as they are often jumping and that distracts.	
External speakers, students' presentations, discussions		Very varied and different to other courses!
Stimulate critical thinking, good atmosphere (a real Master course)	Participation pressure might be a bit stressful	Thanks a lot for your engagement! You were always available and happy to answer potential questions! The discussions were engaging.
I think it was a good idea to give 40% of the grade to participation. This forced students to really get involved and think of the topics. I appreciated the feedback on participation as well as on presentations. I could feel that the teachers had fun giving the class and enjoyed and appreciated the interactions with students.	It was really necessary to have two teachers because of all the comments and questions in the chat. It didn't really work with only one teacher.	You could try to talk a bit more clearly and avoid speaking too quietly - especially at the end of sentences. Otherwise, it was clear that you enjoy teaching :)

<p>-Interactive course: students can questions and contribute to the course with original presentations</p> <p>-Students are free to choose topics that interest them</p> <p>-Invited guest speakers</p> <p>-Appreciate your feedback on the presentations and participation a lot.</p>	<p>Great course, no need for improvement.</p>	<p>I appreciate your initiative to teach as PhD student a course. I enjoyed the course format with two teachers. I think that this really helped the course to get more interactive.</p>
